**Table notes**

Although the headline ranking figures show changes in the data year to year, the pattern of clustering among the schools is equally significant. Some 280 points separate the top school from the school ranked number 50. The top 16 schools, from Harvard Business School to Insead, form the elite group of providers of open enrolment programmes. The second group runs from Canada's Queen's School of Business to Vlerick Leuven Gent Management School ranked 34. Sixty-six points separate these two schools. The third group is headed by Henley Management College which scored 110 points more than the school ranked 50.
